

# GenAI Bot Platform

A dark blue diagonal gradient bar that starts from the bottom left and extends towards the top right, covering the lower half of the slide.

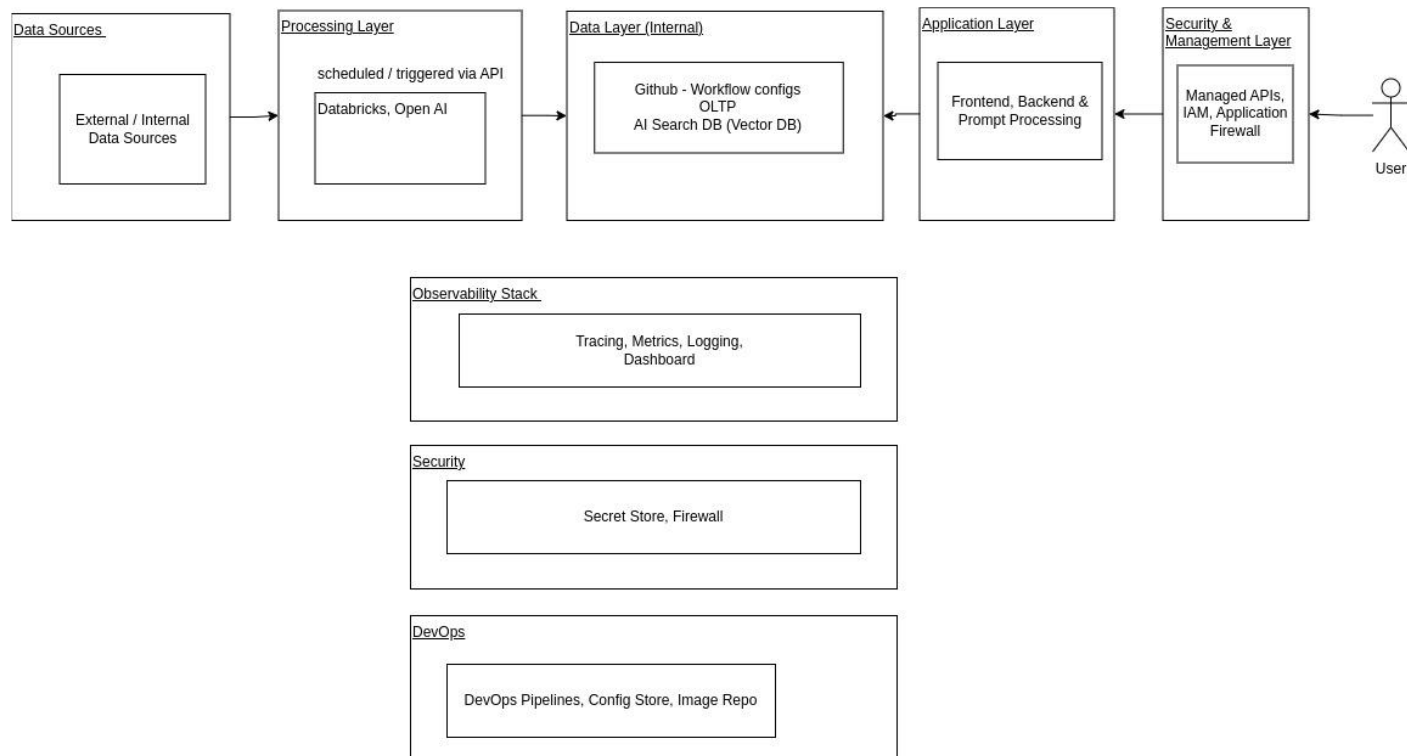

# One-stop low-code platform to create knowledge-engine bots.

- Create your own Gen AI Agent bots customized per domain with your own data sources.
- Configure training pipelines with no coding.
- Maintain and version control training pipelines on github (Gitops).
- Fully managed and scalable..
- Secured with RBAC, TLS & Privileged Access Management.

# UIs

# Conceptual Architecture

### **a Sources**

# Well-Architected Framework

- Operational Excellence
  - Scalable & Flexible (Fully Managed Architecture)
  - Modular
  - Devops
  - Observable
- Secured
  - API Security
  - Vault
- Reliable
  - Fault Tolerance
  - Highly Available
- Performance Optimized
- Cost Optimized
- Sustainable
